

# New York Stock Market

NEW YORK, June 10.—The action of the stock market to-day indicated the resumption of some important operations on the long side. The effect was to reassure sentiment among the boardroom operators and traders, and they refrained from attacks on prices or from attempts to establish lower quotations. Transactions followed the recently prevailing volume, and the conspicuous buying was restricted to a few stocks calculated best to influence feeling toward the whole market.

Signs of profit-taking sales were still in evidence at a few points, and the advance was uneven, leaving some important laggards. Union Pacific continued a leader of the upward movement in contrast with the sluggish movement of Southern Pacific. The latter stock was freed from the positive weakness which it showed yesterday. Northern Pacific was even more prominent than Union Pacific. Its rapid advance was accounted for by rumors that steps were being taken to introduce this stock to the Paris bourse in the same way as has been done in the case of United States Steel.

The denials from bankers interested that any hitch had occurred in the plans for trading in United States Steel in Paris, as was rumored with depressing effect yesterday, relieved the stock market during the day, and it more than regained the ground which it had lost. A decline in the report of the reopening of the Ensley, Alabama, steel mill.

Feeling regarding the steel trade continues confident and hopeful. The news overnight of a rise in wages of workers for several of the independent steel companies was taken as confirmation of improving conditions in the trade. The good impression of metal trade conditions was added to by the May statistics of the Copper Producers' Association, published during the day. Copper industrialists made only moderate response to this showing. A decline in the price of copper warrants in the London market was an offsetting influence.

The introduction to trading on the Stock Exchange of contracts for the new Atchison convertible bonds, when issued, was made the occasion for a bullish demonstration in Atchison stock. The reports of crop conditions were regarded favorably, although the need of dry, warm weather for the best effect on parts of the winter wheat crop was reported. There was some apprehension in stock circles that the recent course of litigation against the American Sugar Refining Company and the agitation for prosecution by the Federal government under the anti-trust law might revive anxiety on the part of investors in corporations and prejudice the movement to attract foreign capital into them.

The firmer tone of the money market was of only slight effect on the speculation in stocks. Rates for call loans ranged from 2 per cent. to above that figure. The banks of New York and France made very strong returns to-day, and the discount rate declined in Paris, while the Paris exchange on London advanced.

A relaxation in the pressure on New York for gold is thus indicated. On the other side, however, a fall in New York exchange at Chicago to par compared with 35 cents per \$1,000 premium a week ago shows an ebbing of the flow of the currency to New York, and gives the premonition of coming requirements for the moment of one country's crops. Rates for time loans for the longer maturities were advanced a fraction, and keener scrutiny of collateral in stock market loans by bankers was reported. The irregularity of the market increased as the day advanced.

Bonds were irregular; total sales, par value, \$5,410,000. United States bonds were unchanged on call.

NEW YORK, June 10.—Money on call easy, 1 1/2-2 1/4 per cent.; ruling rate, 1 1/2-2 1/4 per cent.; offered at 1 1/2-2 1/4 per cent. Time loans very firm on longer maturities and active; six days, 2 1/4-2 1/2 per cent.; six months, 3 1/2-3 3/4 per cent. Close: Prime mercantile paper, 3 1/2-4 per cent. Sterling exchange steady, with active business in bankers' bills at \$4.85 1/2 for 60 days bills, and \$4.87 1/2 for demand. Commercial bills, \$4.85 1/2-4.87 1/2 for 60 days bills, 52 1/2-55. Mexican dollars, 44.

NEW ORLEANS, June 10.—COTTON.—Spot cotton steady and unchanged, 10 1/2. Sales on the spot 300 bales and 75 to arrive. Futures closed steady, with an advance of 1/4 point in spot and a disappointing market. Throughout the session the market was very dull, but very steady, the trend being toward reports of rain in the Central and Eastern portions of the cotton belt and the fear of more rain to-night and to-morrow. On the other hand, prices gradually rose until July was 1/4 point over yesterday's closing and the new crop, closing steady at a net advance of 1/4 1/2 points, the new crop months being the most active. Bids: June, 10 1/2; July, 10 1/2; August, 10 1/2; September, 10 1/2; October, 10 1/2; December, 10 1/2; January, 10 1/2.
